

Enable Panopto to Moodle course

Teachers or teaching support staff with “**Teacher**” or “**Teaching Assistant**” or “**Course Administrator**” role of HKU Moodle course can enable Panopto to the Moodle course. After adding the Panopto block, teachers and students can easily view the video recordings in a Moodle course.

To add a Panopto block in Moodle course

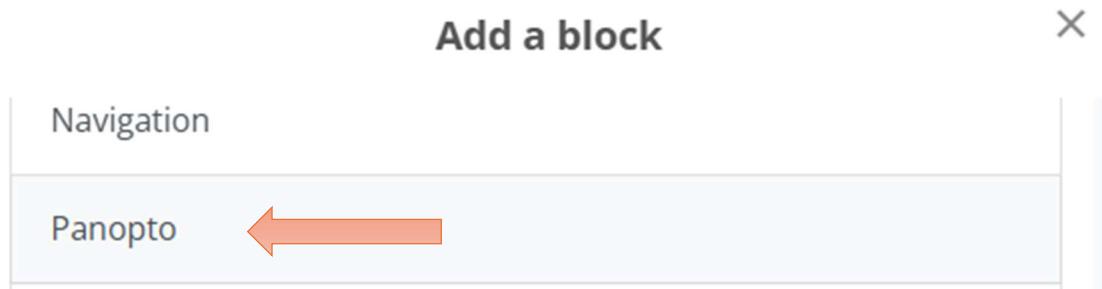

1. Go to the Moodle course
2. Turn on “**Edit mode**” on the top right-hand corner

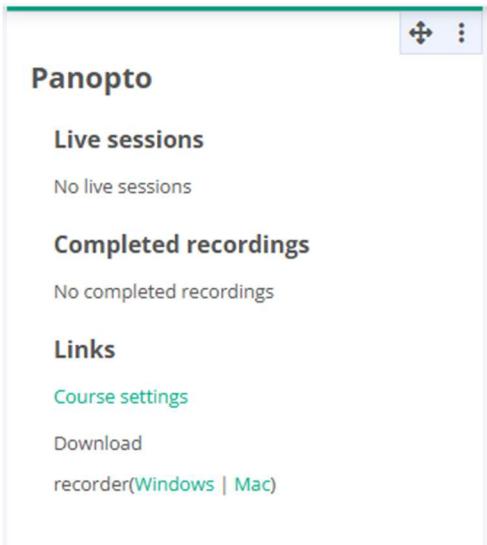

3. Click “**Add a block**” on the right column

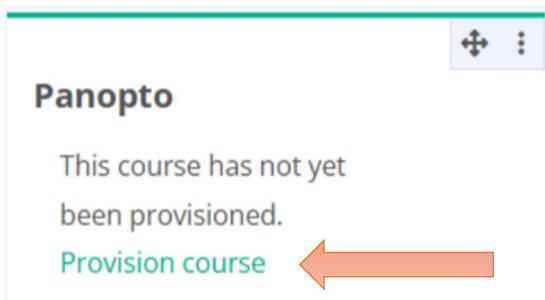

4. Select “**Panopto**” under “Add a block”.

5. Panopto block will be added to your Moodle course which shows on the right column.

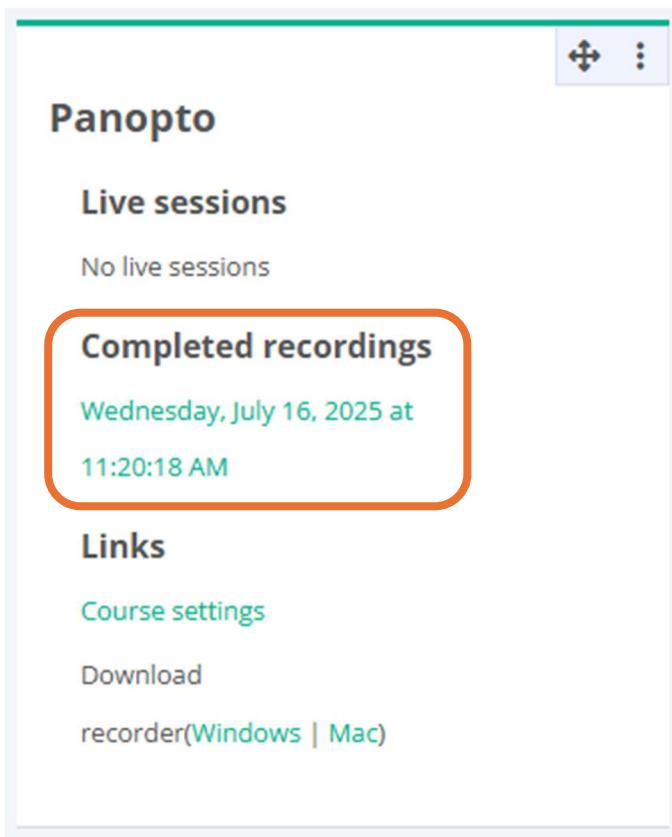

6. If the block shows “This course has not yet been provisioned.”, please click the link “**Provision Course**” to create the Panopto course folder.

This screenshot shows a Panopto course block. At the top, it says "Panopto". Below that, a message reads "This course has not yet been provisioned." In green text, there is a link "Provision course" with an orange arrow pointing to it.

7. Teachers and students in the course can click the video links under “Completed Recordings” when the videos are ready for viewing.

This screenshot shows a Panopto course block. It includes sections for "Live sessions" (No live sessions) and "Completed recordings" (Wednesday, July 16, 2025 at 11:20:18 AM). The "Completed recordings" section is highlighted with an orange rounded rectangle. Below these are sections for "Links", "Course settings", "Download", and "recorder(Windows | Mac)".
